MEDICAL AREA

Specialist on your speciality

A firm completely devoted to designing and manufacturing high production and precision multi-cavity moulds for small parts.

1

Design of the maximum respiratory flow measuring machine. Mould design and manufacturing.

2

Flask with thread to hold samples of the analysis. Mould with slides and hotrunner injection system. Ultra-fast injection cycle.

3

Flexible piece for flow doser.

4

Flow doser with side air inlet. Mould with side hotrunner injection system.

5

Pipe to hold blood samples for analysis. Hotrunner injection system moulds with ultra-fast injection cycle; 8 u., 16 u., 24 u. and 32 u.
